OUR ENVIRONMENT POLICY

As MONTEBELLO RESORT HOTEL, we carry out our works in order to minimize the environmental impacts resulting from all our activities and contribute to the protection of environment on the basis of "SUSTAINABLE ENVIRONMENT" concept.

Considering this vision, we renew ourselves and adopt the following principles. We undertake to:

- Implement the applicable legal regulations in our country by fulfilling our legal liabilities pertaining to protection of environment and nature;
- Apply recycling techniques to reduce wastes in order to minimize factors that may cause environmental pollution and to use resources in a rational and economical way;
- Plan and implement measures to minimize environmental damages in case of an accident or emergency that may ocur during our activities;
- With the awareness that we borrow the Earth from our children, we consider environmentally-friendly constant development and improvement as a social duty for planning and implementing all our processes;
- Carry on our works continuously with all our staff in order to fulfill the requirements of this policy and our environmental liabilities with all our employees.

RAMAZAN OKAR

General Director
